Moreover promoting your books assiduously on-line, there are a number of different methods that may allow you to sell more books.

One is to provide something away free of charge along with your book, reminiscent of a priceless bonus item. Or bundle a number of ebooks under one worth, which lowers the value for each book if they were sold separately.

An effective technique for determining a value is to ship out a survey to your current customers. If these prospects have already purchased an ebook from you, ask for his or her opinion when it comes to price. Do that by making a gross sales web page for the new e book, but don't embody a price on that page. As an alternative, add numerous links to survey questions that ask pointed questions to assist you in assigning a worth to your ebook.

One other technique is to check out prices by making a variety of duplicate sales pages with different prices on each page. Be sure that your gross sales copy is strictly the identical on every

web page, and includes your selling-deal with sentence. Then work out for every web page the conversion ratio between visitors to your website and gross sales of your book. This can tell you what your optimum price is.

In the end, if you've written a e book that solves a problem or presents a new method, your e-book will usher in both traffic and profits.
